

BINARY BLITZ

RULES AND REGULATIONS

1. Eligibility

- The competition is open to students of class 11 and 12.
- The contest will be conducted exclusively in the Python programming language.

2. Contest Format

The competition will consist of two rounds:

Round 1 – Preliminary Round

- Participants will be given several questions covering different aspects of Python.
- Duration: 1 hour
- Solutions must be efficient, logical, and user-friendly.
- Participants will be required to explain their reasoning and code functionality.
- The top 10 teams will advance to the Final Round.

Round 2 – Final Round

- Participants will be given more advanced questions.
- Duration: 2 hours
- The questions will have a broader scope than the preliminary round.
- Participants must explain their approach and how their code works.

3. Judging Criteria

Submissions will be evaluated based on the following:

1. Code Efficiency
2. Explanation and Logic
3. Time Taken for Coding and Execution
4. Code Organization and Readability
5. User-Friendliness
6. Use of Python Features and Standard Packages

4. General Rules

1. Only standard Python libraries may be used.
2. Use of the internet or external resources during the contest is strictly prohibited.
3. Copying, plagiarism, or collaboration will result in disqualification.
4. Participants must maintain proper conduct and discipline throughout the event.
5. The decision of the judges will be final and binding.

5. Team composition:

1. A team can consists of maximum 2 members
