

# FUTURE FORGE

## Rules & Regulations

### About the Event

**Future Forge** is an inter-school **technology innovation challenge** that puts your creativity and quick thinking to the test.

Each team faces a **real-life tech-based scenario** and must **design a product** to solve it — all within **one hour**.

This is not about theory or awareness campaigns — it's about **real, buildable ideas** that use technology smartly to solve everyday problems.

---

### ☐ Team Composition

- 3 members per team
  - Open to Grades **9–12**
- 

### Event Flow

#### 1 Preparation Phase – 1 Hour

- Each team will receive a **scenario** describing a real-world issue.
  - In **1 hour**, teams must:
    - Analyze the situation
    - Design a **tech-based solution** (app, product, or digital system)
    - Prepare a **max 10-slide presentation** or **3–4-minute video pitch** explaining your idea.
- 

#### 2 Presentation & Pitching – 10 Minutes per Team

Each team will have **10 minutes total**, divided as follows:

- **5 minutes:** Team presentation or product pitch to the judges and audience.
- **5 minutes:** Question & Answer segment:
  - The question will be posted from the panel of judges and 2 questions will be entertained from the opposition teams.

*Teams must be concise, confident, and well-prepared to defend their idea.*

---

**Your Presentation Must Include:**

1. **Scenario Summary** – The problem in short.
  2. **Your Product/App/System** – The proposed tech-based solution.
  3. **How It Works** – Basic working flow, tools, or features.
  4. **Why It's Needed** – Benefits, uniqueness, and impact.
  5. **Sustainability or Real-World Potential** – Why your idea matters.
- 

**Judging Criteria:**

- Innovation & Creativity
- Use of Technology
- Practicality & Sustainability
- Presentation & Clarity
- Teamwork
- Q&A Handling
